INTERNATIONAL SUPPORT
For Caching Support

II
ADMINISTRATIVE
EXPLANATIONS

Station supply caches and personnel indicated

17 June 1959 (Est sent 0000Z)

To implement the caching program outlined in reference, we request that Station prepare the following caches:

- a. 4 arms caches (5-man)
- b. 2 sabotage caches
- c. 6 W/I caches
- d. 3 survival caches

Completed caches should be held at Frankfurt until Headquarters approves the program; then they should be pushed to Austria. The plan is to begin the program on 15 August 1959. This equipment will be in the ground some 100 feet of distance for an indefinite period and should be protected accordingly. Use of reasonable stainless steel containers, however, must be made. A decision regarding this as well as composition of the caches (and other details of the equipment and packaging) is to be made in Vienna.

We also request that three caching assignments be supplied by the German Government. Suggest enlisted members of the Army on leave with HUBER. They should be experienced or trained in caching but not be specialists. The suggestion is that this operation could cause serious damage to the security of the German Government by unauthorized persons and therefore must be kept strictly confidential and careful work. Cover will be that of American military personnel on a camping trip in Austria. Those assigned to the operation should wear appropriate clothes. Leave are suggested for starting at the cache site and return parts of Army uniforms such as fatigue or combat pants. While cover of military personnel on leave, we must avoid any suggestion that this is military exercise; also, of course, U.S. Army uniforms are forbidden in Germany and Austria.

If enlisted men are assigned to the operation as suggested, it is recommended they be documented with normal Army leave orders which allow them to travel in Austria. The orders should cover the week between the two caching periods and be sent after in case the caching schedule is altered (from 15 August thru 15 September). Leave orders and I cards should be in alias.

The assigned personnel should meet at the Innsbruck airport on 17 August. Assuming the caches have arrived at INNSBRUCK, they will then accompany [redacted] there to pick up the first cache for burial. The previous day they could drive from Frankfurt to Innsbruck via Innsbruck Center (about 20 miles) and stay there overnight. If they stay at the INNSBRUCK Center, they should go to the INNSBRUCK Center for the night. They should also call either [redacted] or [redacted] at the INNSBRUCK Center.

We also request that [redacted] supply [redacted] with [redacted] to provide ground cache sites.

Vienna: Please send a copy of reference to Chief of Station, Germany.

Distribution:
2 - Vienna
2 - GPO
1 - [redacted]
